## Club Projects Directory

Who is the membership chair for the San Mateo Metro Club? Do you know? How do you find out? You look it up in the District Directory.

What would draw a potential member to your club? Is it because you asked? Probably. But there's one thing that would help interest a potential member to your club. That's your club projects. We know that we have the Posey Parade, the leather auction and we have the health fairs. But *they* don't.

The Family & Women's Development Committee will be putting together a directory of club projects in the District that wants to participate and I hope every club in the District does.

Every club will have the opportunity to mention up to four projects. Out of the four, the one that your club is best known for; your signature project, you will describe what this project is in 100 words or less. If you use more than 100 words, chances are it won't fit in the allotted space.

As you know, our Committee is putting on a symposium in March and we will be asking you to bring a potential member(s) to attend. These directories will be available for distribution to potential members at that time.

The ultimate purpose of this District directory is so that a potential member can look at all the club projects and find one that interests them. A car buff would more than likely seek out Burlingame, Brisbane or Palo Alto because of their involvement with car shows. Someone looking to work with children will more than likely seek out a club that has a Leos Club.

If you have any questions, please contact me or anyone in the committee and we will be happy to help you. Please get the completed forms back to me by December 31<sup>st</sup>.
